I suppose the earth to contain ^{Souls} 1000,000,000

Less than 33 years for a generation
in that space will die — 1000,000,000
consequently there will die

Every year ————— 30,000,000
Day ————— 82,000
Hour ————— 3,400
minute ————— 60
second ————— 1

On the other hand, the number of
those who die is, that of those who are
born as 10 to 12 there will be born
every year ————— 36,000,000

Day ————— 98,400
Hour ————— 4080
second ————— 1

If men did not die there would be
at present about 173,000 millions —
on the earth — the superficial

contents of the land amounts at
least, to 1587 billions (1000 of 1000 of 1000,000
of square feet, there would still remain
4110 square feet of for each person

In an equal extent of ground where
there lives in Iceland — 1 person
there live in Norway — 3 persons

- Sweeden — 14
- Turkey — 36
- Poland — 52
- Russia — 63
- Ireland — 99
- Commons — 127

England	152 persons
France	153
Italy	172
Raples	192
Venice	196
Holland	224
Malta	1103

Iceland is therefore the least of the world, at least of Europe, which is most thinly peopled and Malta the most populous —

Of a 1000 persons, 2 are estimated to die every year —

of 200 children not more than one dies in child bed —

of 1000 children suckled by their mothers there do not die more than 300, but of a 1000 suckled by nurses 500 die —

Among 115 deaths there is only one woman in child birth, and among 400, only one dies in the month after labour —

Small pox carries off 1 out of 100 who are attacked with it more fatal to females than males —

100 persons in large towns 20 ill during a month thro' a year or 24 in a fatigues

More persons in elevated than in low places

Deaths of women to men as 100 to 108
The probable duration of women is 60 years
after that term men ^{live of} are more favorable to men
Married women live longer than unmarried
greatest number of Deaths in March
next August & Sept
least in Nov Dec & January

of 1000 Deaths there are 250 in
Winter - 290 in Spring - 225 in Summer
& 235 in Autumn -

In Paris & London a greater number
in Winter -

1/2 of those who are born die
under 17 years -

No first month of 1 day of life
more Deaths of 2735 Children
who died very young 1292 died the
first day & the remainder the 1st
month -

The greatest number of births in
July & March -

In the whole extent of Country
4 Children to a marriage - In Cities
& great Towns 35 Children for 10 marriages
1/4 of the whole are able to
bear arms

Magellan is the first who, in the year 1519, sailed round the world in the space of 1124 days. Fifty-eight years after, Sir Francis Drake did the same in 1056 days; and twenty years after him, Thomas Cavendish made the same voyage in 777 days. In our days the celebrated Captain Cook and others have performed it in less time.

The phenomenon of the electric shock was discovered by Cuneus at Leyden, the beginning of the year 1749. The same experiment was previously made in Germany, in 1745, by Kleiſt. We may see, lib. ii. that Pliny had even then a knowledge of the electric fire.

DIRECTIONS FOR MARINERS.

MR. William Lord, of *Stonington-Point*, has erected an iron spear, about 13 feet long, with a white vane on the top, upon the rock of *Latimer*, in *Fisher's-Island-Sound*. The deepest channel is to the northward of the rock. This gentleman has it in contemplation, if suitable encouragement should be given by gentlemen from the eastward and westward (who are owners of navigation, and are constantly passing the Sound) to erect a spear upon what is called *The Tail of Watch-Hill-Reef*—another upon *Katumacut-Rock*, upon the same Reef—one upon *Ellis'-Reef*, which lies off *Ram-Island*, and is almost in the middle of the Sound. These rocks are seldom, any of them, out of water, and much in the way of Coasters up and down the Sound, who are unacquainted.

LINCOLN COUNTY. [Incorporated 1760.]

1716, June 13.—† Georgetown, Mark L. Hill 170

† Georgetown is at the mouth of Kennebeck River, is surrounded by navigable waters, excepting about two miles of land; and is fifteen miles south of Wiscasset, formerly called Pownalborough, and naturally lies in three divisions. The Peninsula, or Neck, called Small Point, is on the west side, and on the main, and contains about half the land and population. Arouseag Island contains about 20,000 acres, or one fourth of the land and inhabitants, and the meeting-house. Roskohegan, or Parker's Island, contains as much, or about 28,000 acres. Stage-Island contains about 6 acres.

(a) *The design of this Society is to relieve and assist those objects of compassion, whose circumstances may require relief in a manner different from that which is by law provided for the support and employment of the poor; comprehending therein, the widow and the fatherless, the destitute and helpless stranger, and all, who by sickness, infirmity, or misfortune, may be reduced to indigence.*

Summary of the Method of Treatment to be used with Persons apparently dead from Drowning, &c.

CONVEY the person to the nearest convenient house, with his head raised: Strip and dry him as quick as possible; clean the mouth and nostrils from froth and mud—If a child, let him be placed between two persons, naked, in a hot bed—If an adult, lay him on a hot blanket or bed,

and, in cold weather, near a fire—in warm weather, the air should be freely admitted into the room. The body is next to be gently rubbed with warm woollen cloths, sprinkled with spirits, if at hand, otherwise dry. A heated warming-pan may be now lightly moved over the back, properly covered with a blanket; and the body, if of a child, is to be gently shook every few minutes: Whilst these means are using, one or two assistants are to be employed in blowing up tobacco-smoke into the fundament, with the instrument provided for the purpose, or a tobacco-pipe, if that cannot be had—the bowl filled with tobacco and properly lighted, being covered with a handkerchief, or piece of linen, so as to defend the mouth of the assistant in blowing: Bathe the breast with hot rum, and persist in the use of these means for several hours. If no signs of life should then appear, let the body be kept warm several hours longer, with hot bricks, or vessels of hot water, applied to the palms of the hands, and soles of the feet, for a longer or shorter time, as the circumstances of the case may be.

The too customary method of rolling on a barrel, suspending by the feet, and every other violent mode of agitation, particularly in removing the body from the water, should be most carefully avoided.

The above mentioned method of treatment is to be made use of with vigour for several hours, although no favourable circumstances should arise; for it is a vulgar and dangerous opinion, to suppose persons are irrecoverable, because life does not soon make its appearance; and upon this opinion, an immense number of the seemingly dead have been committed to the grave, who might have been *restored to life by resolution and perseverance* in the above plan of treatment.

COMMITTEE OF OBSERVATION.

Jonathan Lambert, Benjamin Carpenter & John Osgood.

This Society consists of such as have actually navigated the seas near or beyond the Cape of Good-Hope or round Cape-Horn, as masters or commanders of vessels, and such as have been factors or supercargoes of vessels employed in the East-India trade. It was instituted for the purpose of collecting together such observations, discoveries, books, papers, charts and valuable publications in every language, as might tend to facilitate the navigation of the Eastern and Southern Oceans. Every member returning from sea, is bound to present to the Society an abstract of the journal of his voyage, and to communicate, in writing, his observations of the bearings and distances of all capes and headlands; the latitude and longitude of islands, rocks and shoals; unusual occurrences; storms and accidents; with all other observations which he may judge useful to be recorded. The Museum of the Society already exhibits a handsome collection of curiosities.

Rhode Island College, (which name may be altered when any generous benefactor arises, who, by his liberal donations shall be entitled to give it another) is situated in the town of *Providence*, and is a large and elegant building, on a hill to the east of the town, which renders it delightful by commanding an extensive, variegated prospect of the country adjacent; the edifice is of brick, 150 feet long, and 55 broad, four stories high, and contains 60 rooms. *Five hundred and ninety* persons have been graduated there since its institution, although the studies were interrupted by the College being used by the French and American troops for an hospital and barracks, from 1776 to 1782. It is now very flourishing. They have a library of about 3000 vols. of valuable ancient and modern authors. The philosophical apparatus is in a very good state, fitted to give a full course of experiments. [Sept. 1803.]

CONVENTION

Of the CONGREGATIONAL MINISTERS in the
Commonwealth of Massachusetts.

THEIR Meeting is held in *Boston*, in the afternoon of the last Wednesday in *May* (or day of *Election*) annually; and on the following day at noon, after transacting the usual business of Convention, a sermon is delivered in public before them, and a collection made for the charitable purpose of relieving the indigent widows of deceased Clergymen.

The Rev. Nathanael Emmons, D. D. of Franklin, is chosen to deliver the Convention Sermon in May, 1804; but, in case of failure, the Rev. Zedekiah Sanger, of Bridgewater, is to officiate in his stead.

The Convention is a voluntary Association, embracing all the Congregational Clergy of the Commonwealth, and vested with no particular authority or control over the Churches. They have opened a friendly correspondence with the General Assembly of the Presbyterian Church, in the Middle and Southern States, and with the representative bodies of the Congregational Ministers in Connecticut, New-Hampshire, and Vermont, for the purposes of communicating and receiving from them whatever may tend to promote the common interest of Christianity.

A Standing Committee of Convention have been appointed for the purpose of certifying the good character and qualifications of Ministers and Candidates who may travel into other States ; and an agreement has been entered into between the Convention and the other representative bodies of Ministers in other States, mutually to communicate the names of their Committees for this purpose. Every certificate must be signed by one gentleman at least of that Committee, from whose bounds the person recommended travels.

The Committee in MASSACHUSETTS consists of the following Gentlemen.—viz.

Rev.	Rev.
Joseph Willard, D.D. L.L.D. President of Harvard University, Cambridge	John Lathrop, D. D. Boston
Step. West, D. D. Stockbridge	Jed. Morfe, D. D. Charlestown
Seth Swift, Williamstown	Ezra Weld, Braintree
J. Lathrop, D. D. W. Springf.	John Read, Bridgewater
Joseph Lyman, Hatfield	Perez Fobes, L.L.D. Raynham
Roger Newton, Greenfield	Saml. West, D. D. N. Redford
Caleb Alexander, Mendon	Zephaniah Willis, Kingston
John Cushing, Ashburnham	Jonathan French, Andover
Ezra Ripley, Concord	Thos. Barnard, D. D. Salem
Daniel Chaplin, Groton	Samuel Spring, Newburyport
Ephraim Ward, Brookfield	Saml. Deane, D. D. Portland
	M. Hemmenway, D. D. Wells

John Eliot, D. D. of Boston, Treasurer.

John T. Kirkland, D. D. Scribe of the Convention.

The Convention “ earnestly recommend to all young gentlemen, who design to devote themselves to the work of the ministry, to spend that portion of time in the study of divinity, which improved and judicious advisers shall think necessary to qualify them for public teachers.”

The Congregational Ministers throughout the Commonwealth, with some exceptions, are associated, and have regular and stated meetings for fellowship and mutual improvement. The Convention have passed a vote, requesting the Moderator or Scribe of the several Associations throughout the Commonwealth, to forward to the Scribe of the Convention, a correct list of the members of their respective Associations, with the name of the Scribe of each, and of the Candidates licensed by them ; and have directed that the Scribe of the Convention procure the insertion of the several lists in the Massachusetts Register.

The Convention, solicitous to collect and preserve accurate documents for a *History of their Churches*, have passed a vote, that each of the Congregational Ministers in Massachusetts be requested to compile a history of his own Church, and of those in his vicinity which may happen to be vacant, and to make returns to the Scribe of the Convention. It is hoped, this important request will not pass unnoticed, but be productive of great good.

}	Pilots for the Inward Division of the Port and Harbour of Boston.
---	--

Josiah Ayres,
 Nathaniel B. Lyde, } Pilots for the Outward Division of
 Lemuel Ayres, } the Port and Harbour of Boston.
 William Sayward, Pilot at Gloucester.

By a late Law of this Commonwealth, the pilotage of the harbour of *Boston* is formed into two divisions, *Outward* and *Inward*. The outward division consists of four branches; and the inward division consists of three branches; and no person so commissioned as a pilot, or his deputy, shall undertake to bring in or carry out of said harbour any vessel drawing *nine feet* of water, (coasters and fishing-vessels excepted) except in his own particular branch, under the penalty of *fifty dollars*.

The Governor and Council determine and fix the fees of pilotage of the several pilots for the harbour of *Boston*, from time to time, having respect to the different risk and hazard of the inward and outward divisions, and according as the circumstances of peace or war, and the seasons of the year, may severally require; and the same to be specified on their respective warrants. A schedule of their fees to be hung up in the Custom-House for the port of *Boston* and *Charlestown*, for public inspection and information.

General Information respecting Probate Business.

AN Executor should notify the heirs, or persons interested in a will, of the day he intends to offer it for probate, that they may have opportunity to contest the probate thereof, if they see cause: otherwise the Judge may be

obliged to postpone proving the will, and to cite the heirs. An executor, knowing of his appointment, must cause the will to be proved within thirty days after the death of the testator, or present the said will to the Probate Court, and in writing declare his refusal : otherwise he may be subjected to a heavy fine. When a person dies intestate, the widow, or next of kin to the deceased, (if of age) should, within thirty days, take out a letter of administration, or in writing decline the trust. Guardians must be appointed to minors, before the estate is distributed, and before the account of administration is allowed. When executors and administrators are prepared to exhibit their accounts of administration to the Judge for allowance, they should invariably notify the persons interested therein, or their guardians, to be present in Court at the examination thereof ; unless the heirs and guardians will previously examine the account to be exhibited, and will certify thereon their approbation of it. This method may save much trouble and expense. The same steps should be taken with creditors, when an estate is insolvent : that is, they must be notified as aforesaid, or they must certify as aforesaid. Administrators who wish not to account with the Judge of Probate for the personal estate of the deceased, as the same shall be appraised, should give notice thereof, at the time they return the inventory, and then obtain an order for the sale of the whole, or such part thereof, as the Judge shall direct ; and the heirs also, if they apprehend the personal estate is appraised too low, should represent the same to the Judge, and request to have it sold at public auction, or at private sale, as will best serve the interest of all persons concerned.

CURE FOR THE STONE.

[A Negro disclosed the following, on his freedom.]

TAKE one gill of the expressed juice of horsemint, and one gill of red onion juice, every morning and evening, till the cure is perfected. White onions will not have the same effect as red ; and in order to obtain the juice of the latter, they may be cut in thin slices, well salted, and bruised between two pewter plates. It is, however, the juice of the horsemint, which possesses the *most* virtue in this disorder ; and a strong decoction of this will generally, in time, effect a cure.

☞ All parts of articles to be subject to the same duties as the entire article is subject to.

On all *ad valorem* articles imported from any foreign port within the Cape of Good Hope, 10 per cent. to be added to the actual cost, including all charges, (outside packages, commissions and insurance only excepted) before the duties are calculated, & 20 per cent. if from any port beyond said Cape.

All dutied articles, imported into the United States, not having been landed more than one year, are allowed a drawback of the duties, subject to a deduction of $3\frac{3}{4}$ per cent. except spirits, which is *half a cent* per gallon, and $2\frac{3}{4}$ per cent. on the amount of the duties.

No beer, ale, or porter, to be imported in casks of less capacity than *Forty Gallons, beer measure*, or if in bottles, in packages less than *Six Dozens*, under penalty of forfeiture, with the ship or vessel.

The Bottles in which Liquors are imported, to pay the same duty as empty bottles.

No goods, wares or merchandize, of foreign growth or manufacture, subject to the payment of duties, to be brought into the United States from any foreign port or place in any other manner than by *sea*; nor in any ship or vessel of less than *thirty tons burthen*—except in certain districts on the Northern, North-Western and Western boundaries of the United States.

No merchandize to be imported in any vessel belonging in whole or in part to a citizen or inhabitant of the United States, unless the master of such vessel shall have on board a Manifest in writing, signed by such master, or other person having the command, containing the name of the port or place where such merchandize was received, and the port where consigned or destined to, within the United States, particularly noting the merchandize destined for each port

respectively; and every package on board such vessel to be particularly described;—to whom consigned, or if to order, with the names of all passengers, distinguishing whether cabin or steerage passengers, or both, with their baggage, and an account of all remaining sea-stores, (if any.)

“No ship or vessel from foreign ports, or coming by sea from any port of the United States, shall be permitted to report, make entry, or break bulk, till the master shall deliver to the post-master all letters under his care or within his power, other than such as are directed to *the owner or owners of such ship or vessel*, and on oath or affirmation, to be taken of such delivery, the master to receive *two cents* for every letter so delivered.”

[*Post-Office Law.*]

GENERAL INFORMATION.

The want of certificates of distilled spirits, wines or teas, subject such articles to seizure, and *fifty dollars* fine, if such certificates are not delivered to the purchaser; and if any cask, chest, vessel or case, containing such articles, shall be found in the possession of any person, without being marked, and not being accompanied with a certificate, the same is liable to seizure.

On the sale of any cask, &c. which has been marked, the marks to be defaced in presence of some officer of inspection or customs; and the certificate of the same to be delivered up, under penalty of *one hundred dollars*, with costs of suit.

Goods from foreign ports, not to be unladen but between sun-rise and sun-set, without special license, under a penalty of *four hundred dollars* on the master, and every other person concerned, disability from holding any office under the government of the United States for seven years, and being advertised in the newspapers, with forfeiture of the goods; and if above *four hundred dollars*, value of vessel and apparel.

Goods removed before gauged, and weighed, and if wines, spirits or teas, before being marked, without permission, are forfeited.

Persons giving or offering a bribe, forfeit from *two hundred to two thousand dollars*. Inspectors and officers of revenue cutters may go on board, examine and search vessels, have access to the cabin, and seal packages; and after further secure hatches, &c. Persons in charge of vessels, for breaking fastenings, but in presence of an officer, forfeit *two hundred dollars*.

Officers may seize within or without their districts. Persons resisting or impeding them, forfeit *four hundred dollars*.

The master or commander of any vessel, that shall obstruct or hinder (or be the cause thereof) any officer of the revenue, in going on board his ship or vessel, for the purpose of carrying into effect any of the revenue laws of the United States, forfeits from *fifty to five hundred dollars*.

Every owner of a vessel, residing within the limits of the United States, to swear to the register within *ninety days* after its being granted, or it becomes void, and the vessel and cargo pays foreign tonnage and duty.

Returned Cargo.

(If any articles of an outward cargo are brought back, they are to be detained, specified by whom shipped outward, and to whom consigned inward.)

For the Information of Merchants in the District of Boston and Charlestown.

ALL bonds given on the exportation of merchandize, entitled to a drawback, must be put in suit as they become due, unless by prior application to the Comptroller, longer time shall be given to procure the necessary evidence that the merchandize exported was landed in a foreign port, captured or lost.

That no document of landing merchandize in a foreign port, entitled to a drawback, can be received, however regular, after the bond becomes due, unless satisfactory reasons are assigned for the delay.

That the exporter of all salted provisions and pickled fish, entitled to bounty, cannot claim it, unless the evidence of the delivery of the fish and provisions, in a foreign port, is tendered before his bond, given at the time of exportation, becomes due, excepting in those cases where satisfactory reasons are assigned for the delay, or a farther time granted.

by the Comptroller for obtaining evidence of the landing of the provisions or fish, in a foreign port.

That no debenture can be issued on the exportation of merchandize, unless the exporter shall, within ten days after the clearance of the vessel, complete those papers which the law makes necessary to his being entitled to a drawback.

Should any merchant in this district be conscious that he has bonds in the Custom-House, now due, given on the exportation of merchandize, or of pickled fish, or of salted provisions, he will consider how interesting it is to him, to have them cancelled without further delay.
